Never done a spider ride before? Well let me tell you how it works.

- You decide what difficulty of a route you wish to take, and this may be due to rider age (i.e. if you're leading a little one) or your confidence on the open forest.
- You will be allocated a new forest car park and an allotted start time. You will ride with up to 5 other people.
- You will be given a map and told to reach the end point by the meeting time.
- You hack to the meeting point at your own pace and on your chosen route.
- Once you arrive at the meeting point, you can eat and drink to your hearts content.
- Then once you've eaten enough, you hack back to your car park and head home at your own pace.
- Therefore, you may need to bring your headcollar and leadrope.
