3 day Horsemanship Experience Course

20 - 22 July 2018

Roughdown House

Blackfield, Hampshire SO45 1XG

The Horsemanship Experience course is about giving course participants more depth and scope to their overall horsemanship. The course aims to incorporate many elements of horsemanship, from colt starting or young horse handling to lateral work, engagement, jumping.

This course combines both principle and purpose and is a lot of fun! The content varies from course to course and is dependent on the horses and people that turn up. Whichever path the course takes, it is always interesting, exciting and will move your horsemanship along in leaps and bounds.

The course participants and their horses will learn how to develop better weight distribution and impulsion, improve their horse's level of engagement and athleticism.

There are also various lateral exercises that are used to help with impulsion and engagement leading to the self carriage of the horse.
